

Your \$5 Membership Share

For membership into Service Credit Union, you must maintain a \$5 membership share in your Primary Share/Savings account (00). Along with establishing your one share of the credit union which makes you an owner, this basic deposit makes you eligible for other Service Credit Union products and services. A \$5 membership deposit is required in a Primary Share/Savings, regardless of other products and services you currently have or would like to have with us. This is a standard practice among all credit unions.

If you currently do not have \$5 in your Primary Share/Savings account, please visit our online banking site, call 800.936.7730 (US) or 00800.4728.2000 (Int'l), or come into any branch to transfer or deposit the funds.

The \$5 in your Primary Share/Savings account will be frozen on September 1, 2017 and no longer included in your available balance. The hold is placed on the \$5 membership share to ensure you keep all the benefits Service Credit Union offers. The \$5 membership share will be returned to you in the event you wish to discontinue your membership with Service Credit Union.

To find out if you have \$5 in your Primary Share/Savings, you view your statements.

The Suffix: 00 will appear at the top of the statement.
